## WILLIAM F. WOOD IS DEAD; FUNERAL TO BE HELD TUESDAY

**Pioneer of Glendale Passes Away After Short Illness; Services at Home**

William F. Wood, one of Glendale's pioneer residents, passed away yesterday morning, Sunday, November 13, 1921, at his home, 1470 East Wilson avenue, after an illness of about a week.

Just before death occurred Mr. Wood seemed to be feeling better. Before falling asleep he talked and conversed freely with members of his family. From this sleep he never awoke.

Thursday Mr. Wood was sixty-six years of age. He was born near Marshall in Clark county, Illinois. When he was about thirteen he was brought to California via New York City and the Isthmus of Panama. Two years he lived in Sutter county and then was taken to Ventura county by his parents. Here he was married and lived until 1897 when he moved to San Luis Obispo where Mr. and Mrs. Wood resided for twelve years before coming to Glendale in October, 1909.

**Active in Many Matters**

The first family home here was located on Orange Grove avenue in a residence which has since been removed. Three years later the family moved into its present home, 1470 East Wilson avenue. Here Mr. Wood, who had retired from active farming, devoted his attention to supervising the cultivation of seven acres of orchards.

A deacon in the Baptist church, Mr. Wood was also a trustee of the Redlands university and keenly interested in religious, educational and civic activities. He took a large part in the establishment of a Baptist church at San Luis Obispo and also participated to a large extent in the campaign for the erection of a Baptist church in Glendale. Upon his departure from San Luis Obispo his pastor stated that Mr. Wood was "the most faithful man he ever knew."

**Funeral Services Tuesday**

Funeral services will be held at the residence tomorrow, Tuesday, afternoon at 2 o'clock, Reverend Eugene Ford of the Baptist church officiating. Jewel City Undertaking company in charge. Interment will be at Forest Lawn.

Mr. W. F. Wood survives her husband, also two sons. Dale Wood is a senior in high school. Ernest W. Wood is a resident of Marion, Calif. One daughter, Mrs. Harry W. Chase, lives at 345 West Lomita avenue, while another, Mrs. Hazel E. Williams, came from Eugene, Oregon, just before her father's death.

Mrs. Mary Jane Newman, Thermal, is a sister and B. M. Wood, Oxnard, is a brother. Another sister, Mrs. A. L. Gordon, has her home in Oxnard, but is now on her way home from a visit to her old home in Illinois and probably will not be able to attend the funeral. There are eight grandchildren.

## Hi-Y Banquet Postponed in Deference to W. F. Wood

On account of the death of William F. Wood, 1470 East Wilson avenue, father of Dale Wood, the Hi-Y banquet, which was planned for tonight at the Presbyterian church in honor of the high school football team, has been postponed until next Monday night, November 21. Dale Wood is president of the Hi-Y and was to act as toastmaster at the banquet planned for tonight.

The sudden death of Mr. Wood necessitated a change in the Hi-Y plans, announced Rex C. Kelley, 106-A East Broadway, secretary of the Glendale district Y. M. C. A., and tentative arrangements are now being made for holding the banquet at the Presbyterian church next Monday night.

## Mrs. J. W. Walton Wins Car in Legion Contest

Mrs. J. W. Walton, who resides at 206 Maryland court, is the possessor of a new Ford car. It was presented to her by the American legion for an investment of 25 cents with Mrs. Warren Roberts, who won third in the carnival queen contest. Her son, J. W. Walton, Jr., who lives in Albuquerque, N. M., served over a year in France.

By Sunday evening the carnival was a thing of the past, the Sheesley Shows having departed for Anaheim. The financial success of the legion's efforts is not known as yet, but it is expected the organization made quite a tidy sum to apply on a building site.

## PRESENT POLICY ON WEST COAST BEST, ASSERTS ENSIGN

**Naval Man Believes Japanese Will Not Disarm; Trouble Threatens, He Declares**

Claud A. Bradbury, 429 Lincoln avenue—Ensign Bradbury, if you please—saw quite enough naval service to satisfy him. He recently finished a series of adventures during which he traveled 185,000 miles. However, after spending a month in Japan last spring, he is very definite in his opinion about the defense of the west coast:

"I believe in disarmament to a certain extent, especially in the army," declared Mr. Bradbury. "I don't believe that we should cut down the navy because we have nothing but our coast line to protect. I think we should keep a good small standing army so that in case of war the men could be trained into officers. I think we should keep a fleet in the Pacific and a merchant marine. The might cut out some of the old boats but I think a force of submarines, and an air force and destroyers should be kept even if some of the old 1905 boats were junked."

**Will Japan Disarm?**

"I would believe in disarmament if all the nations were in it wholeheartedly. No doubt it is a big expense. Can we rely upon Japan to disarm? Japan is the only naval force in the world whose strength can't be learned. After one visit to Japan, I don't believe much in disarmament in the Pacific. I believe we should maintain our present policy in the Pacific. I think we should keep a good first class navy here and a merchant marine."

"The Japanese seemed very much against America. When you get into Japan and stay around a month or so, you think there is going to be a war right away."

"The figure themselves the chosen race. They have never been 'kicked' and now, since the war is over, they have gotten more money and more education and they think they can go out and beat the world. They are taking Germany's place and they discredit everything American. While I was in Japan a book called 'If America and Japan Fight' was brought out by a Japanese general. It outlined the probable campaigns in such a war. No, I don't think the agitation was due entirely to this book."

**Discredit Merchant Marine**

"The Japanese are doing everything to discredit the American merchant marine. Kioke is about the greatest port in Japan. When American ships come in with cargoes, they have to wait for a long time until they can come up to the dock. If a British or Japanese boat comes in, it gets a chance to get unloaded and out again at once."

"At Yokohama we had to have wireless communications delivered through another American ship there because all messages had to be addressed to the Japanese shore station and instead of being delivered in about a half hour they would be held up for two days. The wireless messages were intercepted by our ship and sent ashore at once in lighters."

"There is not much poverty in Japan. Some of it might seem like poverty to us but it doesn't to them. I think we should maintain our present Pacific policy and exclude Japs from the west coast."

SAN FRANCISCO, Nov. 14.—The task of securing a jury of twelve men and women who will determine the guilt or innocence of Roscoe "Fatty" Arbuckle, charged with manslaughter as the result of the death of Virginia Rappe, film actress, was undertaken here today. Department eleven, superior court, already famous for the Mooney bomb trials, furnished the setting for the scene on which was focused the eyes of the millions who in the past have watched with mirth and laughter the antics of the rotund comedian on the silver screen. It was no pie throwing contest today for the maker of laughter for many—his liberty and future were at stake. Thirteen women and fifty-three men were in the venire called in Superior Judge Harold Louderback's court at 10 o'clock today when the clerk called the case of the state versus Arbuckle.

## U. S. PROPOSALS ON NAVAL PLANS ARE WELL RECEIVED

**Both England and Japan in Favor of Program; Many Details to Be Heard**

LONDON, Nov. 14.—Secretary of State Hughes' proposals for limitation of naval armaments are compatible with British interests, according to an official statement issued from Premier Lloyd George's Downing street office today.

"The proposals are ambitious, but as the conference has an ambitious project, they are not surprising," the statement said. "They are compatible with British interests."

**U. S. Navy Program Continues**

WASHINGTON, Nov. 14.—The proposals of the United States for a ten year naval holiday will have no effect on the present status of the American naval building program, Secretary of the Navy Denby said today.

The present building program will continue until some definite agreement has been reached and there will not be even an effort to slow down or curtail the building operations pending the final agreement on the matter, the secretary said.

**Seems Pleasing To Japan**

TOKIO, Nov. 14.—The general tone of Secretary of State Hughes' startling pronouncement on naval disarmament at the opening of the world conference in Washington on limitation of armament was pleasing to Japan.

Japan is willing to accept the limitation of ten capital ships proposed by the American secretary, but is unwilling to accept the ratio suggested to exist between Great Britain, the United States and Japan.

The question of naval bases must be taken up along with fleet strength. These, unofficially, are the reactions in Japan to the reports received here so far from Washington on the first sessions of the arms congress.

By GEORGE R. HOLMES  
By International News Service

WASHINGTON, Nov. 14.—Recovering somewhat from the severe attack caused by America's blunt presentation of a revolutionary naval program, the statesmen of Great Britain and Japan settled down today to the grim business of determining how far they can go in accepting it.

The first flush of general approbation has given way to the necessity of the hard matter of consideration of each proposal made by Secretary of State Hughes.

Both Great Britain and Japan have approved the epochal suggestions of America only "in principle," which is tantamount to saying that they approve the general idea of reducing existing navies and regulating future building. A cold analysis of the utterances of the delegates since Secretary Hughes tossed his bombshell into the peaceful quiet of Saturday's meeting reveals that none of them have gone further than approving the principle laid down, admiring the boldness of its presentation and expressing the hope that an agreement can be reached.

**It Will Take Time**

The impression prevailed in official quarters today that it would be considerable time before the visitors from London and Tokio will be in a position to say flatly, "yes" or "no" to the concrete terms as proposed by this government.

The delegates to the conference are known to be clothed with power and authority unusually great, but they were unprepared for anything as far-reaching as the American proposals to the world and they will have to receive careful, minute consideration of British and Japanese cabinets before there will be a flat committal.

**Glendale C. of C. to Enter New Home**

The Glendale Chamber of Commerce headquarters will move tomorrow afternoon from 115 West Broadway to the second floor of the Citizens' building opposite The Glendale Evening News office on South Brand boulevard. Decorators are putting the finishing touches on the comfortable suite of office rooms today.

The first meeting to be held in the new quarters will be that of the Tournament of Roses float committee, headed by Mrs. Mabel L. Tigh, members of the committee will be present at 7:30 p. m. Tuesday night. Mr. and Mrs. L. W. Chobe and others who so successfully aided with the prize-winning barge last year, will be at work again for the 1922 event.

## GUN DUEL FOLLOWS DARING ROBBERY AT SEBASTIAN'S

**Holdup Men Get \$178, Then Escape After Battle in Streets With Officers**

Two men stepped into Sebastian's grocery at Glendale and Wilson avenues shortly after 6 o'clock Saturday night.

"Put 'em up," they told Frank Dunham, the butcher, who was nearest the door. One look at two blue steel revolvers was sufficient argument for him to walk to the rear of the store with his arms high in the air.

Howard Sebastian, manager of the store, made a jump for the cash register in an effort to get the currency to safety. What appeared to be another customer, a heavy set man, whipped out a long-barreled revolver, leveled it on young Sebastian and his mother, Mrs. Norma E. Sebastian, who was endeavoring to call the police on the telephone.

## Special Officer Appears

Mother and son both gave a leap for the back door, almost falling in the arms of J. L. Browne, a special officer, who was passing the store on Wilson avenue. Looking in the door, he saw the bandit robbing the register and just as he whipped out his .45 Colts, a boy cried "holdup."

This was a signal for the bandits to decamp. Two two in the front of the store dashed out the door and made tracks toward the city hall where the police station is located. The other started out another door, but not until Officer Browne had sent a bullet sizzling by his head.

## Gun Battle Results

Howard Sebastian gave chase to the two headed toward Broadway, but lost them in the dusk of the evening. Browne and Frank Walker, another special officer with the Glendale Patrol and Fire Dispatch, gave a gun battle to the robber chief and his pals from Glendale and Wilson avenues to California avenue and the Salt Lake yards.

Possibly a score of shots were fired and the police and others took up the trail of the six or seven men who made away with \$178 in silver and currency. The police were armed with sawed-off shotguns and fast cars patrolled the roads during the

## PASTOR TAKES FOUR WORDS OF JESUS AS HIS TOPIC

Rev. C. M. Calderwood Talks  
on 'Come, Follow, Abide,  
Go' at Sunday Service

The subject of C. M. Calderwood's sermon at the Congregational church yesterday morning was "Four Words of Jesus." "Come, Follow, Abide, Go." A resume of what he said follows:

One word may express the central thought of teaching or the purpose of the action of many of our great men. Plato's word was "know." Epicurus' word was "enjoy." Darwin's was "progress." Gough's was "temperance." Edison's was "invention." Charles R. Brown in one of his books has given us four words of Jesus which he says unlocks the door of his teaching. He shows us that these words are addressed primarily not to the intelligence or the feeling alone, but to the will. Our minds and hearts have been appealed to and they have responded, but our weakness lies in a lack of response of the will. Our wills have not been translating into life what our hearts and minds have dictated. Without our wills dedicated our Christianity becomes weak, flabby and meaningless.

"The outstanding word at the beginning of Christ's ministry was 'Come.' When Andrew and John saw Him and asked Him where He dwelled He said, 'Come and see.' He invited them to the high levels on which He lived. He invited them to have some personal experiences with Him. They saw where Jesus got His strength, and they saw what great ideals moved Him, and after having this valuable personal experience they went out and brought others to Jesus.

**If Wells Are Dry**  
"Jesus asked those who were athirst to come. If the wells of your religions are dried up, the thing to do is to come to Jesus and there will be refreshment for the impoverished life.

"He said, 'Come unto me all that labor and are heavy laden and I will give you rest.' This is not an invitation to laziness but to a renewal of life in fellowship with God in Christ.

"At another time Jesus said, 'He that cometh unto me shall never hunger.' We need not hunger for any good thing. Our deepest longings can be satisfied in Jesus. There is satisfaction always when we are in close contact with Jesus.

"Jesus is the only one who can stand at the center of our charity and say, 'Inasmuch as ye did it unto one of the least of these, ye did it unto Me.' He is the only one who can stand at the center of our humanitarianism and say, 'Love is the fulfilling of the law.' He only can stand at the center of our liberty and say, 'Ye shall know the truth and the truth shall make you free.' He is the only one who can stand at the center of our great problems today and as the Prince of Peace help us to solve them. He has the right to stand at the center of these and say, 'Come.'

**With New Emphasis**  
"The call of Jesus to come to Him can never rightly mean less to us than the entire dedication of all our powers and energies to Him as our ever-present Lord and Savior. There are times when the call to come to Jesus becomes instinct with a new emphasis as it was to Andrew on the afternoon when he was called. The call to be a Christian or to be a better Christian is a summons to be no more your own man but to be Christ's self-renounced man, to dedicate your life with all its powers and possessions to the righteousness to which Christ dedicated His life.

"The next important work of Jesus is 'Follow.' When He called His disciples He told them to follow Him. He told the rich young ruler to sell all that He had and to follow Him. If he were to follow Jesus it meant the giving of his life and possessions to the service of others. If a man is to follow Jesus He must deny himself, he must take up his own cross. Following Jesus means that we must direct our lives by the same great principles that directed His life.

"The third important word that has been given to us is 'Abide.' We are told to abide in Christ as the branch abides in the vine. We can't live our best lives without Him. This means constant fellowship. Through prayer we receive the life-giving energy that we need.

"The last word of Jesus is 'Go.' The last word that He had for His disciples was, 'Go ye into all the world and preach the Gospel.' If coming, following, abiding do not eventuate in going they amount to very little. If we have received a good impression we are obligated to express it. We go to church not to receive impressions alone but to learn to carry these impressions out in Christian service."

## COMMENT THAT'S ALL

Village Pride of L. A.  
Oriental Espionage  
Kidnapped But Seldom  
Home Flavored Humor

By Gil A. Cowan

VILLAGE pride of Los Angeles extends beyond salt water, says the San Pedro Daily Pilot, the "home town" newspaper published at the harbor.

"A movement has been started to change the name of San Fernando valley to Los Angeles valley," the Pilot editor says, "because a part of the valley is now within the city limits. The civic enthusiasm of these men and women in Los Angeles who come from villages in the middle west and have as yet no conception of real metropolitan ideas is admirable when it is applied in some directions and amusing at other times.

"Los Angeles is becoming a great city. No truly metropolitan city can make its name alone cover all its geographical divisions. Only a small town can do so without inconvenience to its residents and visitors.

"Everybody has New York in mind when they think of the Bronx, Manhattan or Brooklyn. New York has outgrown village ideas and nobody thinks of abolishing the geographical subdivisions necessary for metropolitan convenience. When people in the East who have been here and know the community hear of Hollywood, San Fernando or San Pedro they of course connect them with Los Angeles. The subdivisions are necessary in order that they intelligently grasp the scope of the news.

"It will be a great handicap to Los Angeles if the village enthusiasts have their way in Los Angeles and succeed in their efforts to wipe out those historic names that serve so well to distinguish the various sections of Los Angeles. Fortunately the movement has little support among the broad minded people of Los Angeles who have had metropolitan experience.

"Most of us laughed when these villagers wanted to change the name of San Pedro Bay to Los Angeles Bay and it was suggested, why not change the name of the Pacific ocean, too? Up on the ranches in the San Fernando valley they are probably getting a lot of fun out of the latest proposal. Those Los Angeles villagers are surely funny but as a rule they are harmless."

Montville Flowers, who ran for congress in this district some years ago, seems to have written a book displeasing to Japan. It is entitled "Japanese Conquest of American Opinion."

Whenever a copy appears in a library, it is stated that it disappears. San Francisco, Seattle, Boston, Chicago, St. Louis and other places report the loss of this book to the public.

It is stated that Japanese agents have approached the publishers in an effort to buy the copyright. If such is a fact the ramifications of the Mikado's secret service in this country are such as to be alarming. In view of the peace talk at Washington, would it not be nice if the Japanese agents politely bow and get out of this country without further activity.

Enough is enough of anything and America has a plenty of oriental espionage. In Los Angeles a 15-year-old girl ran away from home. Her mother immediately suspected kidnapping. The police were notified. The girl's picture was printed. The whole southwest was interested. At Brawley last week a newspaperman identified the girl and she was placed in the custody of officers. Her mother talked with her over the telephone and insisted that her daughter had been "kidnaped."

The daughter knows better and tried to tell her mother that she was "tired of home" and ran away. It is a wonder that so many daughters stay at home, especially when they are sent out to "rope" some man.

Girls, as a general rule, are NOT kidnapped, especially if they do not have wealth with which to pay a ransom. It is not necessary to kidnap the female of the species when there are so many waiting to accompany almost anyone, anywhere, anytime.

Funny things do happen around town. A woman resident of eastern Glendale needed 30 cents worth of stamps on Friday for a parcel post. Inquiring at the Glendale Pharmacy she learned that only 10 cents worth were sold to a customer in order that all could be accommodated.

In a few minutes she was back with four lady friends and each made a 10-cent purchase—of stamps. At Broadway and Central avenue early today some motorist didn't know where he was going and he dashed west on Broadway headed for the Bungalow grocery. He didn't stop until he had collided with a sign pointing to the turn in the road.

Fred Deal of the Pacific Telephone & Telegraph company says, "We don't give trading stamps, but we give a ring with every telephone call."

"Good Literature Day" was observed at the morning service of the Methodist church yesterday with a special program of music and recitation.

A Red Cross service was held in the evening, accompanied by an address by Mrs. Ida M. Gibson of Los Angeles, head of the publicity department of the National Red Cross society. She was on every battle front and crossed the sea four times. After describing some of her experiences, she urged her audience to respond to the national roll call and continue the work of the society.

## Gouverneur Morris Story Is Featured on Glendale's Screen

To take life or to preserve it; to set oneself up as an arbiter over the lives of others, or to pursue the course of enriching one's own existence by enjoying the common experiences of us all, are some of the questions that find solution in the new Goldwyn picture, "Ace of Hearts," by Gouverneur Morris, which is being shown at the Glendale Theatre the first of the week.

Mr. Morris has presented a group of well-meaning but misguided reformers, who will stop at nothing to gain their desired ends. Though their aims may be altruistic and noble, their methods are evil. Consequently, there arises the old question of "Does the end justify the means?"

The author of "Ace of Hearts" has developed his story consistently. As in all human activities, there is a very human slip between the conception and the execution of the group's plans. It is brought about by the beautiful love of two of their members, played by Leatrice Joy and John Bowers. Through the agency of another member, played by Lon Chaney, their evil methods meet an evil fate, and the lovers find a new basis for their future life.

The latest Pathé News and Topics and Harry Sweet in "High Life," a hilarious comedy, round out the bill. The film features will be seen again tomorrow in conjunction with five selected acts of standard vaudeville from the Bert Levy coast-to-coast service.

INDIA PARTY IN PROTEST

SAN FRANCISCO, Nov. 14.—The Hindu-Gadgar party, through its local committee, sent the following telegram to President Harding: "We desire to place on record a strong protest against the representation of India at the conference for limitation on armaments by persons not responsible to the people of India. They will serve their masters who appointed them rather than the Indian nation. Any decision arrived at concerning India will be morally untenable and therefore not binding on the people of India."

## Demand of 8 Cents Duty on Eggs Made Senate Committee

WASHINGTON, D. C., Nov. 14.—Demand for an 8-cent duty a dozen on eggs was presented before the senate finance committee by Knox Bonde, an egg producer of Petaluma, California.

Sensors on the committee asked him why American poultrymen needed a high protection on eggs at their present price.

"I paid 85 cents a dozen for eggs delivered to my house," said Senator Smooth, republican on Utah.

"And I paid 66 cents at the store and carried them home," commented Senator Curtis, republican of Kansas.

Bonde, who spoke for the Pacific Coast Co-operative association, and the American Poultry association, said it costs 6 cents to ship a dozen of eggs across the country. Commission men paid poultrymen 60 cents a dozen, he said.

"This is none too high in view of the high cost of feed and other incidentals of production," he told the committee. China, during the first eight months of this year, shipped in 2,500,000 dozen and is increasing the imports. This is detrimental to the American industry, he said.

The property at the southwest corner of North Brand boulevard and Lexington Drive, the site of the California Academy of Music which was recently sold by E. L. Schuyler of the Hanson-McMillan-Schuyler realty firm, 124 West Broadway, for H. E. Bartlett to the Misses Jeanette E., Ida M. and Myrtle Baldwin, has been purchased by J. A. Endicott of the Endicott & Larson real estate company, 116 South Brand boulevard.

The Endicott & Larson firm reports much activity during the past few weeks, among the sales being twenty acres in the northwest section of Glendale on Ninth St. which was purchased by Southwick & Blake of Los Angeles who, it is announced, intend to subdivide the property and place it on the market.

The Ginger apartments at 130-132 South Adams street has been sold by the firm to J. M. Selleck of 450 West Myrtle street, who will improve the property, says Mr. Endicott.

**MARSHAL FOCH IS HONORED**  
NEW HAVEN, Conn., Nov. 14.—Marshal Foch received the degree of doctor of laws from Yale university. Thousands of persons cheered the allied generalissimo as he was escorted to Woolsey hall by squads of police and militia. Foch attended the Yale-Princeton football game and remained here over Sunday. He then left for Providence where he will receive an honorary degree from Brown university.

## URGES NAVAL SUSPENSION

WASHINGTON, D. C., Nov. 14.—Unless an immediate suspension of naval construction is decided upon during the first few days of the conference on limitation of armament and far eastern questions, Senator Pomerene, democrat of Ohio, member of the senate foreign relations committee, will demand senate action on his resolution authorizing President Harding to suspend, in whole or in part, the present navy building program of the United States, he announced. In official circles, it was predicted the Pomerene resolution would meet stiff opposition from republican leaders of the senate.

LONDON, Nov. 14.—"I have fol-  
lowed with great satisfaction the  
steps taken by the president of the  
United States to promote reduction  
of expenditures on armaments, an  
object which commands the fullest  
sympathy of my government," said  
King George in a speech read from  
the throne by Lord Birkenhead, the  
Lord Chancellor, during the present  
session of Parliament.  
"It is my earnest hope that the  
labors of the conference will be  
crowned with success."  
"It was in this spirit that my gov-  
ernment gladly accepted the invita-  
tion extended by the United States  
government to the conference on dis-  
armament about to be held at Wash-  
ington," the King's message declared.

Regarding Ireland, the king said:  
"The situation in Ireland still  
causes me great anxiety. I earnestly  
exhort leaders of all Irish parties to  
exercise patience and moderation  
with the object of establishing friend-  
ship and loyal co-operation between  
my people of that country. It is my  
firm belief and earnest prayer that  
an enduring peace will finally be  
achieved."

"The session of parliament has  
been marked by events of great im-  
portance to the welfare of the British  
Empire and to the peace of the  
world," the king said. "It is not  
possible to say that peace is  
firmly established in Europe and it  
must be long before the world can  
recover from the strain and sacrifice  
of war, but good progress has been  
made towards solution of most of  
the critical problems in home and  
foreign affairs."

Defense of Empire  
"The dominion prime ministers  
gave serious attention to the defense  
of the empire, and to the mainte-  
nance of an adequate measure of sea  
power. It was unanimously decided  
that the naval strength of the em-  
pire should equal that of any other  
power."

"I learn with satisfaction that the  
financial year will end without a  
budget deficit. Our debts are great  
and it is possible to say that peace is  
firmly established in Europe and it  
must be long before the world can  
recover from the strain and sacrifice  
of war, but good progress has been  
made towards solution of most of  
the critical problems in home and  
foreign affairs."

## Another Family Has Been Brought Here by Harry C. Ellis

Mr. and E. C. Stables and family  
of Portland, Me., arrived in Glendale  
Saturday and headed for Harry C.  
Ellis, 300 South Brand boulevard, to  
look over real estate, reports Mr.  
Ellis.

Mr. Stables was attracted to Glen-  
dale by receiving some literature  
Mr. Ellis recently left in Kansas  
while on a visit there.  
"It certainly made me feel good,"  
said Mr. Ellis, "to know that the  
party was brought to Glendale by  
some of the literature I distributed.  
Mr. Stables came directly to the of-  
fice as soon as he arrived here. He  
found Glendale to his liking and will  
locate here if possible, and I am  
glad to think that this advertising  
matter scattered while I was back  
east has been the cause of bringing  
another good citizen to Glendale."  
"We are expecting others to arrive  
later on as there are many in the  
east and middle western states who  
are planning to come to Southern  
California—and, of course, Glendale  
—just as soon as they can make ar-  
rangements to get away."

## MAY SOON FREE E. V. DEBS

WASHINGTON, D. C., Nov. 12.—  
Eugene V. Debs, socialist leader, now  
serving a ten-year term at Atlanta  
prison for obstructing the draft, may  
walk the streets a free man on  
Thanksgiving day through the presi-  
dent's executive clemency, it was  
learned in an authoritative quarter.  
When Debs gains his freedom, it is  
understood, other so-called political  
prisoners also will be released under  
the president's order, extending  
clemency by commuting existing sen-  
tences. There are now about 150 of  
the war-time offenders in different  
prisons.

General amnesty for war law viola-  
tors is being considered by the at-  
torney-general in connection with  
his recommendations in the Debs  
case, soon to be ready for the presi-  
dent. The prisoners are expected to  
be opened to practically all of those  
whose offenses would have been  
given a minor classification had they  
been committed in peace times. The  
president, it is said, has definitely  
decided to act upon the Debs case  
and others as soon as he has issued a  
proclamation of peace.

## SPORTS CHATTER

By BILL UNMACK  
PACIFIC SPORTS SERVICE

In California at least there has for some time past been a feeling among swimmers that the time has come when a governing body for aquatics should be organized. The men and women in active competi-

tion, and those with the interests of this sport at heart are not antagonistic to the A. A. U. of the United States, but they believe the general average of the men forming the governing bodies of the A. A. U. district branches are neither interested enough nor expert enough in their knowledge of swimming to properly handle the sport.

There is a growing feeling that an organization composed entirely of heads of swimming clubs should be formed to govern natatorial sports in California. These people do not want to break away from the A. A. U. They desire to have the proper affiliation of their proposed organization with the local A. A. U. branches, but they want to run their sport in their own way with experienced swimmers and others properly qualified to handle the sport. Their idea is the formation of a body similar to the Soccer football association, the Lawn Tennis association, the Cycling association and other such bodies. Each of these has its own governing body, but is fully affiliated with the A. A. U. Such a proposal is a fair and just one, but to date it has not met with the support of A. A. U. officials that it should. Such an organization would take a great load off the A. A. U. shoulders without in any way materially decreasing the membership in that body. There was a propo-

posal something similar in the east some time ago, but this Pacific coast not having heard further of it, it is presumed the matter died a natural death.

Portland, Ore., is to hold a "World's Fair" in 1925 and plans are already being laid for the holding of all types of sports and games. Joe Caughlin, manager of the Broadway natatorium of Portland has come to the front in support of the swimmers and it is his intention to try and work up the local interest to such a point where a swimming meet of international proportions can be held during the exposition. Of late years Portland, Ore., has been coming to the front in swimming circles. The fact that the city is the former home of Norman Ross has had considerable to do with the advancement and improvement of swimming. All the rising generation are out to try and emulate Norman Ross and if they succeed Portland will be the swimming center of the world. They have good facilities at Portland for swimming and there is no reason why a big natatorial event should not be promoted at the time of the exposition.

Stanford university under Coach Ernie Brandstein has one of the best looking college swimming teams on the coast this year. The water polo team is first class and Brandstein is expecting it to "cop" the coast conference polo title. The team is composed of Drake, center; Strauss, lf; Miller, rf; A. Austin, cb; Stern, captain, rb; Fletcher, lb, and Gropin, goal.

## The WORLD OVER

By FRANKLIN B. MORSE.  
PACIFIC SPORTS SERVICE

NEW YORK, Nov. 14.—Two boxers, Abe Goldstein and Terry Martin, fought a draw recently in Brooklyn. Under the circumstances there was no excuse for the Americans present to start a rough house. What might have happened had a decision been rendered is another matter.

George Bothner, a former lightweight champion wrestler, is in considerable demand here as a referee at wrestling matches. Bothner's experience in wrestling has been not only as an active exponent of the sport, but as instructor and referee, and he knows the game from root to branch.

Notwithstanding a strenuous season of tennis which included the early sectional championships, the Davis Cup series and the National Championship events, William Tilden, the world's champion, has generously volunteered and played in the exhibition games for devastated France. There are many who are wondering whether or not Tilden is not over-playing, and doing himself more harm than good by his continued presence on the courts. Getting too much of a thing may be quite as bad as not getting enough practice.

## Five Teams Remain as Contenders for This 'Championship'

By JACK VEIOCK  
Written for International News Service  
NEW YORK, Nov. 14.—Five teams remained in the field of contenders for the mythical eastern football championship today.

Penn State, Yale, Lafayette, W. and J., and Cornell have not tasted defeat this season, and it is more than likely that at least four of the five will come through with clean slates.

Of the contenders on this side of the Alleghenies, Penn State looks best. Hugo Bezdek's eleven has gone through a harder schedule than any of the others, and outside of one little blot on its record—the tie with Harvard—stands out today as the strongest team in the west.

Cornell, adding another victory and fourteen more points to her total last week, is leading the teams of the country today as a scoring machine with a total of 351. Georgia Tech with 345, is second and leads the south. Notre Dame, with 306, is third and leads the west while California leads the Pacific coast with 235 points.

## Sims Ely, ex-Publisher, Is Visitor in Glendale

Sims Ely of Phoenix, Arizona, was in Glendale Thursday calling upon his old time friend, John W. Sharpe, of 705 South Glendale avenue. Mr. Ely is one of the prominent men of Arizona. He was for many years owner and editor of the Arizona Republican. Ill health compelled him to dispose of this some time ago. Having fully recovered his health, he is now engaged in government and state work, being a close friend and business associate of Governor Campbell, whom he has been representing in Washington, D. C., for the past two years. Mr. Ely is greatly impressed with the growth and business possibilities of Glendale. He has always been an enthusiastic booster of southern California.

MILO WHEAT  
Glendale's home of MILO WHEAT  
A breakfast food that is no cheat.—Advertisement.

Yale's basketball team will make a Christmas tour which includes Columbia, Springfield, Cincinnati, Indianapolis and Chicago. It is the longest Christmas trip taken by a Yale athletic organization in the history of the university.

It wouldn't be a bad idea when eastern teams make these winter basketball trips into the middle west for the Pacific coast teams to arrange schedules which would permit of five from each rim of the continent meeting on neutral ground. The itinerary could be arranged beforehand so that a date could be selected at some common meeting point. It would be a great boost for basketball.

There has been considerable discussion of late to the effect that Annapolis and West Point teams should be made to conform with the one-year rule in football as well as being obliged in the matter of time when they may begin training. It hardly seems fair that these two institutions should have free rein while other teams are handicapped. There are more than enough college teams to play on an even basis without taking on the cadets unless they are willing to "start even."

## They Carry Guns on Armistice Day—and They Use 'Em, Too

Armistice day should be spent "toting" a gun, according to W. W. Clark and A. A. Jackson of Jackson & Clark, Maryland avenue and Broadway—so they went out "hunting" jack rabbits, cotton tails, sage brush rabbits and quail.

To see that they didn't get into mischief Mrs. Jackson and Mrs. Clark and the two Clark kiddies, Melvin and Katherine, went along. The party drove to the Claremont valley, where Mr. Clark has some property, and had a very pleasant time.

"There isn't any better eating in the world than little sage brush rabbits," declared Mr. Clark Saturday morning, in anticipation of the pie to be served Sunday.

"There isn't anybody who ever missed any more shots than I did," admitted Mr. Jackson, and his partner added, "And it wasn't the fault of the gun, either."

## Chester T. Paladine, Surveyor, Is Visitor; May Locate in City

Chester T. Paladine who during the past year has been chief surveyor in the drainage project being carried on by the district irrigation board of Imperial Valley, was a caller here Saturday afternoon at the realty office of Charles E. Guthrie, 103½ South Brand boulevard. Mr. Paladine is now residing in Los Angeles and is contemplating moving here.

Mr. Paladine is a thorough musician on band instruments and made inquiries as to the American legion band and stated that he desired to become a member should he move here.

## REDUCTION IN BLANKETS

Blankets are cheaper now than last fall, according to W. L. Moore of the Irish Linen Store, 117 North Brand boulevard, who remarked this morning that it was getting to be the season for them again and that they had been selling rapidly. He stated that an Oregon City woolen mill blanket, which had sold for \$22.50 last year was now selling for \$15.

## PLAY RESUMES IN BOWLING LEAGUE OF LOCAL ELKS

Fifth Week's Contests Will Start Tuesday; How They Line Up at Present

By HOWARD M'GILLIS  
Sporting Editor The News

After a week's layoff the forty members of the Glendale Elks' house bowling league will resume play this week with added vim, vigor and vitality. Contrary to the previous announcement, tomorrow night's match will be the beginning of the fifth week's schedule, the games that were scheduled for Armistice week having been postponed until after the finish of the regular season. Hostilities will be opened in Tuesday's play with the E. Z.'s and the Buzzards, who are now sharing first place with two other teams, battling for the lead.

The results of the third week's matches produced numerous changes in the percentage standings of the various teams, several of the early season winners giving way to their underestimated opponents. Among the real upsets of the four nights' bowling program was the two out of three victory of the lowly K. P.'s over the pace making Terrors. The "champions" were unable to overcome the handicap which they "spotted" the erratic K. P.'s, and as a result they lost their first match of the season. The win boosted the "dish washers" from the cellar berth to fifth place in the league standing.

League Standing  
The P. D. Q.'s, who played their last match with the Buzzards in a crippled condition, are now in sixth place, having failed to win a game. They are tied with the Wizards, who managed to win a contest from the fast traveling E. Z.'s.

Following is the league standing to date:

	Won	Lost	Pct.
Terrors	6	3	.667
Jays	6	3	.667
Buzzards	6	3	.667
E. Z.'s	6	3	.667
K. P.'s	4	3	.444
P. D. Q.'s	3	6	.333
Wizards	3	6	.333
Bambinos	2	7	.222

Now that the tournament is practically half over a considerable amount of keen rivalry is arising between the leaders in each of the four classes. The three bowlers in each class having the highest average score for all games will receive merchandise orders from a number of local firms.

How They Line Up  
The leading trios in the various classes for the first three weeks' bowling are as follows:

Class A—Viola, 179 5-9; Fortunato, 174; Ward, 171.  
Class B—H. H. McGillis, 167 1-9; Ed Clark, 161 5-6; Card, 160 8-9.  
Class C—Fanset, 153 2-9; West, 149; V. Salmacia, 148 7-9.  
Class D—F. Salmacia, 135 1-2; Rose, 125 1-9; Serviss, 113 2-9.

Are Timmons, star "in and out" of the Terrors, leads the field for first honors for the special bowling ball with a high mark of 222. This score was made in the match against the K. P.'s.

The schedule for this week's bowling is as follows: Tuesday, E. Z.'s and Buzzards; Wednesday, Jays and K. P.'s; Thursday, Terrors and Wizards; Friday, P. D. Q.'s and Bambinos.

## E. T. Seidenglanz Says Appreciate City More

"There's no place like home if that is in Glendale," says E. T. Seidenglanz, 120 North Brand boulevard, "for I believe there is no city in the United States like our city. One doesn't appreciate Glendale fully unless he has been back east or has been receiving regular correspondence from there. Why, here we haven't even felt a touch of business depression, and now we never will, as the country will recover before the depression gets here.

"The scenery and climate of Glendale, too, are other things I believe are taken too much as a matter of course by many here and passed up without due appreciation. We have the most beautiful city in Southern California and its climate is wonderful. We ought to appreciate Glendale more."

## A. J. Lucas' Office Reports Big Demand for Glendale's Lots

Eleven lots from noon to night is the record announced by the A. J. Lucas realty office, 305 South Brand boulevard, that number being placed in reserve in a few hours after being put on the market.

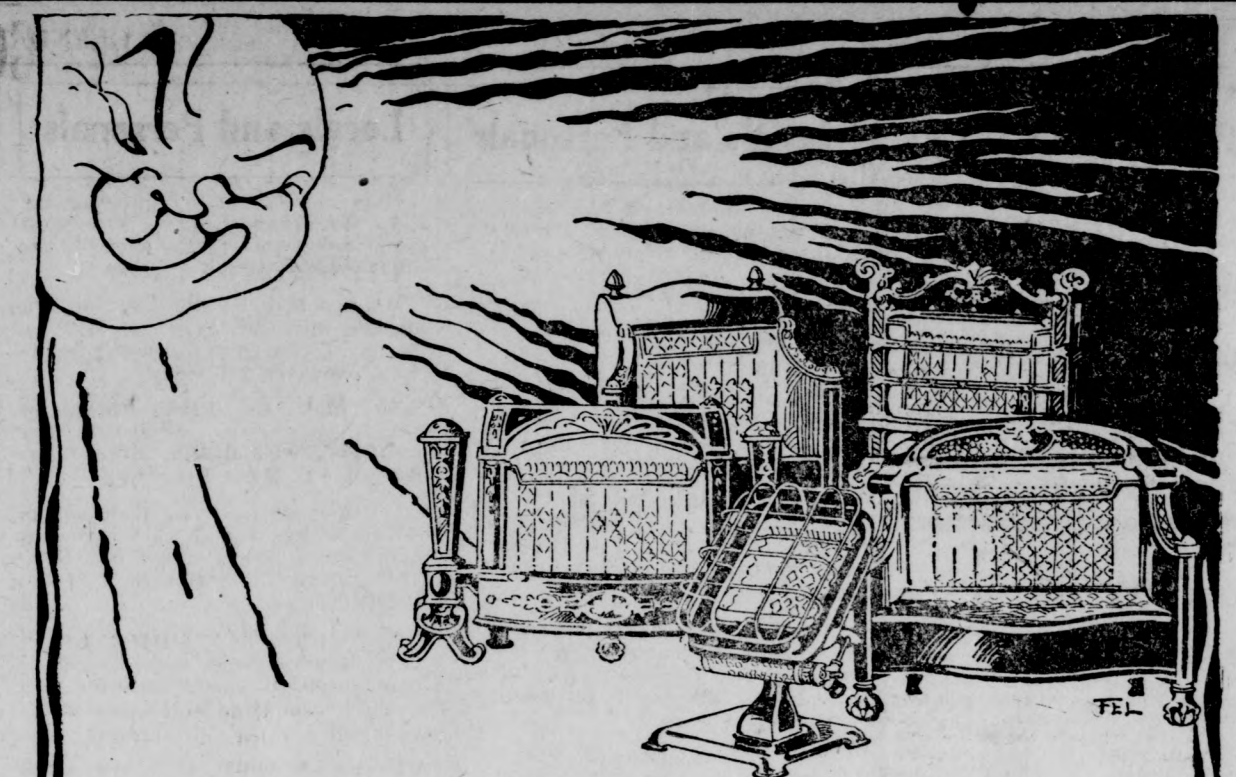

R. E. Hill, of the firm, reports that eighty-seven lots were recently put on the market at noon and then he says, the rush began.

"Our listing of these eighty-seven lots was a large one, since lots are in such great demand in Glendale," he said, "and the bunch is going fast."

## BIG DEMAND FOR FLAGS

"What is the matter with getting up another parade," inquired H. E. Baines of The Mission Store, 107 West Broadway, this morning. "I could have sold lots more flags if I had them."

The odors of tropical vegetation growing on islands in the West Indies can at times be detected on board vessels 25 or 30 miles from shore.

## Big League Scouts Bring Protest From Coast League Heads

LOS ANGELES, Nov. 14.—An appeal to Judge K. M. Landis, high commissioner of baseball, to prevent major league scouts from tampering with Pacific Coast league ball players was made by William H. McCarthy, president of the Pacific Coast league. Claiming that eleven flagrant cases were brought to his attention last year by clubowners, McCarthy said interference with players must stop.

Because of the elimination of the draft, major league clubs have been unable to obtain the stars of the coast. It is said that the methods adopted by some scouts is to talk to the players and make them dissatisfied. Then the owners are forced to sell the men to keep harmony in the club.

The directors took up the question of the adoption of an official baseball and discussion of the question of cutting down the road per centage of the Sacramento club also was considered.

Sacramento received 45 per cent of the receipts on the road. Last year the club made money and some of the directors favored putting Sacramento on the same basis as the rest of the teams while on the road—40 per cent of the receipts.

Charles and Lou Moreing, owners of the club, told the other directors baseball would not pay in Sacramento under that arrangement. They asked for a five-year arrangement on the 45 per cent basis, and agreed to erect a new ball plant if they were given that consideration.

Cal Ewing and Dr. Charles Strub, members of the schedule committee, will submit schedules calling for twenty-eight weeks of play at the January meeting.

Speaking for the citizens of San Diego, George Crowley, William Palmer and Stanley Hale offered Bill Lane, Salt Lake manager, \$100,000 for his franchise. Lane refused to take it.

"If I don't lose more than \$10,000 a year on the Bees I will be satisfied," Lane told them. "Baseball is not a business with me. It is a sport and a hobby."

## BRIBERY PLOT IS FOILED

PORTLAND, Ore., Nov. 14.—Dave Lightner, well known in police circles as a bootlegger, and C. O. Oda, Japanese, were arrested here with narcotics, chiefly opium and cocaine worth approximately \$63,000 in their possession. Lightner offered Patrolman Pershinger \$2000 to stage a fake arrest as Lightner and Oda drove along a certain street with the contraband cargo, which they were to get from a steamer. The officer was to hold the Japanese and let Lightner get away with all the drugs. But Patrolman Pershinger had informed headquarters of the attempted bribe and a squad of cops arrested Lightner as well as Oda.

## OLDEST V. C. IN WORLD WHITTIER PAYS TRIBUTE

WASHINGTON, D. C., Nov. 14.—Sergeant Geo. F. Richardson, the oldest "V. C." in the world, paid Canada's tribute to the unknown American war dead by depositing a simple wreath of Canadian maple leaves on the casket at the capitol. He is 92 years old, straight and supple as a youth, and with a mind as alert as it was when he won his Victoria cross, 62 years ago in India. Richardson is an Irishman by birth and his life has been an Odyssey of adventure. Withal he is profoundly religious.

"I feel quite certain," he said today, "that we are near the end of the earth. Men have flown in the air, navigated under the sea, killed each other with weapons of unbelievable deadliness, spoken to each other through thousands of miles of space, the rich have oppressed the poor, there has been more starvation the last few years than in centuries before. Read the bible and you will soon realize we are near the end of the world."

Nothing rejuvenates an old joke so much as finding a new listener.

WHITTIER, Cal., Nov. 14.—A whole city bowed its head in grief when Whittier's pioneer resident and her grandson were laid to rest. The Friends church, in which the double funeral services were held, was crowded by a hushed throng which had come to pay its last respects to Mrs. Mary Ann Newlin Coffin, 100, and the aged woman's 16-year-old grandson, Samuel Timothy Coffin. Mrs. Coffin celebrated her 100th birthday anniversary September 2. So afterwards she became ill and gradually declined. Her death was followed a few hours later by that of her grandson, who was a victim of tuberculosis.

## THREE RULES TO BE SETTLED IN START CHRISTIAN LIFE

**Rev. Harley G. Preston Tells What Must Be Done When Beginning Under God**

"There are three rules which must be settled at the beginning of the Christian life," declared the Rev. Harley G. Preston, pastor of the Pacific Avenue Methodist church, during his sermon yesterday morning. "First, do nothing knowingly to offend God; second, do nothing to offend thyself; third, do nothing to make others stumble."

"A Jeweler can tell at a glance the difference between gold and pinhead. So the Christian should see at once the right thing, were he not in the habit of trifling with conscience. Small questionings should have but little, if any place, in our larger life. The growing boy or girl grows his clothes. The best proof of growth is when a man gets beyond small scruples and meets his responsibilities."

"Duty is a great matter. It is the sum total of Christian service. When Paul became a Christian, he did not ask if he might visit the exhibitions of the stadium, mingle in the Ishmian games or continue to be a Jewish zealot hating Christians to judgment and death. These things had been disposed of. A sunburst of new life opened upon him. He had no desire for the former life. The new was better. His one prayer was, 'Lord, what wilt thou have me to do?'"

### There Is Difference

"Ethical questions in the small affairs of life are as fruitless as the task of the Danaides who were doomed to draw water from a deep well and fill an immense sieve with it."

"The difference between a Christian and a non-Christian is that one is on his way to Jerusalem and the other only hopes to go there some day. One man is on his way to heaven and the other is on his way to begin the journey some time."

"Make the most of yourself. You have but one life; use its possibilities to the utmost. Do not be discouraged. Rome was not built in a day. A young convert cannot become a full fledged saint all at once. Character is of slow growth but it can be steady and permanent. Digging up the bulb of a plant does not hasten the blooming of the lily. Day does not break instantly. The stars vanish only one by one."

### Written To Meet Needs

"There is always more beyond. The 'beyond' is illimitable. Cruise around the fringes of the Mediterranean if you will, but do not fear to turn your prow toward the Pillars of Hercules and sail out toward the west."

"When the Bible was written, it was written to meet the needs of people of all times. While methods of presenting it can change, the spirit of it remains the same. It will be the same yesterday, today and forever. No matter how many airplanes are above our heads or how many wireless messages are darting through the ether about us and no matter what marvelous inventions take place in the future, we can always bank on the Word of God being up-to-date."

"Christianity is a life. As a doctrinal and ethical system it expresses itself in walk and conversation—a creed going about doing good."

## Hey, Skinny! Uncle Sam Informs Teacher If You Play Hookey

Uncle Sam is being used by Glendale teachers to inform parents when their children play "hookey."

Johnny does not show up at school for three days, then his pa gets the law read to him—by mail.

Instead of fooling his dad, Johnny only finds that he's "in bad" at home.

"Any child may be reported as a truant, who shall be absent from school without valid excuse more than three days or tardy more than three days," says the state truancy law.

"Any child who has once been reported as a truant and who is again absent from school without valid excuse one or more days or tardy on one or more days may again be reported as a truant. Any child may be deemed an habitual truant who shall have been reported as a truant three or more times."

"If such child shall have been declared an habitual truant, the attendance officer shall bring such child before a magistrate for commitment by him to a parental school."

L. T. Rowley, 334 Vine street, is the attendance officer for the grammar school system.

Even a cheap article is repaired to look like new."

## GOOD BOOK WEEK TO BE OBSERVED THROUGHOUT COUNTRY THIS WEEK

**Glendale Library Will Take Part in Movement by Offering Much Varied Literature to Public**

"Good Book" week is to be observed throughout the United States this week, beginning November 14, and with this in mind, Mrs. J. C. Danford, librarian, and members of her staff are planning to take an active part in this movement, which was originated with the American Library association for the express purpose of calling attention to the better literature, especially during the winter. Mrs. Danford states that the members of the staff will be prepared to conduct a continuous book review, as it were, answering any and all questions in regard to books in which the library patrons may be interested.

It is with the idea of keeping up with the growth of Glendale that all the departments at the library are being increased with many volumes of new books and other branches. Especially notable in the new books, which are being released for distribution this week, are those dealing with music and musical history. These will not only appeal to the students and professional musicians, but to all lovers of music.

## ERNEST D. SEXTON GIVES TALK UPON 'RUSSELLISM'

**Denies That Faith Is What It Has Been Described in Recent Sermon Here**

"The Menace of Russellism" was the title of a lecture given Saturday night at Central Hall, 111 East Broadway, by Ernest D. Sexton of Los Angeles, during which he said, in part:

"My purpose tonight is not merely to defend what is known as 'Russellism,' but more particularly to defend the truth of God. If 'Russellism' is what Rev. E. E. Ford says, according to reports, then we all ought to be earnestly engaged as true Christians in stamping it out."

"Rev. Ford is reported as using for his text, Luke 16:26: 'Between us and you there is a great gulf fixed; so that they who would pass from hence to you cannot; neither can they pass to us who would come from hence.' Jesus spoke a parable."

### Denial Is Made

"Time will not permit me to go into a lengthy explanation of this parable, but the statement of our Lord in the twenty-ninth verse of this same chapter clearly indicates to whom this parable is applicable: 'They have Moses and the prophets; let them hear them.' The most superficial Bible reader knows that only the Jews had Moses and the prophets. As Paul says in Romans 1:2: 'Unto them were committed the oracles of God.'"

"It is absolutely untrue that 'Russellism' teaches, 'Do as you have a mind; it will all come out all right; there is no hell; no sin; and if you die a miserable profligate God will give you another chance after death and eventually you will land in Heaven; so on with the dance.'"

"All 'Russellites' believe in Hell because Hell is mentioned in the Old Testament thirty-one times, and twenty-two in the New Testament. 'Russellites' believe all that is written, but we distinctly deny that Hell is a place of real fire and brimstone. The Bible declares that Hell is a place 'Where the wicked cease from troubling and the weary are at rest.' Hell simply means the grave or by analogy oblivion."

"The Bible clearly teaches that the great mass of mankind will have their trial for life in the millennial age, but that by no means relieves them of responsibility now. Every wilful sin will merit and receive a punishment either here or hereafter as Paul says in Timothy 5:24: 'Some men's sins are open beforehand, and going before to judgment; and some they follow after.'"

"Jesus said, 'He that knew his Lord's will and did not accordingly, shall be beaten with many stripes; but he that knew it not, shall be beaten with few stripes.'"

### First Recital Given at Glendale Theatre Very Well Received

What might be termed a really wonderful reception was accorded the artists who appeared last night in concert at the Glendale theatre. While the versatility of Paul Carson, who plays the organ superbly, has been recognized by the theatre-going public, the several special selections he provided for the program of music begot him much just appreciation.

Harry Stanton and Miss Maud Norman Reilly, tenor and contralto, who appeared in solo and duet numbers, were so pleasing that Manager William A. Home of the Glendale Theatre has arranged with L. E. Behrmer, the Los Angeles impresario, to have both return next Sunday night. Mr. Stanton gives that dramatic verve to his work that even a blasé audience admired. Miss Reilly's voice, too, commanded the close attention of her hearers in solo numbers, while the tonal qualities of both blended beautifully in the duets.

The robbery of the Raymond theatre cashier in Pasadena Saturday night of \$900 was likely the work of the same gang. A good description of the bandits has been furnished the police of southern California. They seemed to be experienced gun men and worked without masks.

**Check Birthrate or Face Starvation, So Noted Writer Says**  
BY MILDRED MORRIS  
NEW YORK, Nov. 14.—The world is in danger of starving to death unless the great nations take immediate steps in concerted effort to check the birthrate, J. O. P. Bland, noted English writer, declared here today.

Bland, who is a recognized authority on the far east, predicted war between the United States and Japan if the Nipponese are forced by the president's armament conference to abandon their program of territorial expansion.

Only war can save Japan, he declared, unless it secures outlet for the emigration of a surplus population which it cannot feed.

The distinguished Englishman, who is here to attend and address the first American conference on birth control, denounced ministers and doctors, declaring them to be the two classes "which were the most vigorous in their opposition to birth control and yet practiced it themselves most."

He declared the program of the Washington arms parity to secure future world peace by limiting armaments "to be childish."

"The one thing most important to the world's peace and welfare—the limitation of population—it will not consider," he said.

"The world is over populated and with nearly 70,000,000 now starving, great misery and suffering are in store for all of us unless the intelligent nations immediately unite to reduce the birth rate."

**Mrs. Alice H. Farrish's Recital Tuesday Night**  
Mrs. Alice Hammond Farrish invites Glendale music critics to attend her recital at the First Methodist church tomorrow night. A coloratura soprano of some prominence, Mrs. Farrish recently came to this city from San Diego where she was soloist at the Sunday afternoon municipal organ recitals. A few weeks ago she appeared there in a song festival. Before coming to the coast Mrs. Farrish was the soloist for the Denver municipal band. Her accompanist, Miss Lilla Litch, has studied extensively abroad and at the Boston Conservatory of Music, and is reported to be a pianist of more than usual talent.

Miss Kathryn Garnett, monologist and impersonator, will also be on the program. Within the last five months she left Boston. She was graduated from Dr. Curry's school of expression.

**GENERAL STRIKE SPREADS**  
ROME, Nov. 12.—The general strike called by the Chamber of Labor in protest against Anti-Radical activities of the Fascist was spreading rapidly today. The Fascist, following their meeting here, held a parade during which there was some fighting between the paraders and striking railway workers. The general strike was called after the railway workers had protested to the Fascist congress against anti-Socialistic activities of members of that organization, particularly the attacks upon the communist deputies. ## OIL QUESTION HAS BIG BEARING ON CONFERENCE

State Department Has Drawn Up Working Agreement to Receive Consideration

By HARRY L. ROGERS  
Written for International News Service  
Copyright, 1921, International News Service.

WASHINGTON, D. C., Nov. 14.—Convinced that the petroleum problem has an important bearing upon any plan for the limitation of armament and a better understanding among the nations, the department of state has just completed a comprehensive study of the question, with especial attention to those phases which seem likely to lead to conflicts of national interests.

Though oil is not specifically mentioned on the agenda of the conference there is little doubt that the subject will come up for discussion, and it was learned on high authority today that the American attitude toward the question has been tentatively formulated and is ready for submission to the other powers at the proper time.

This plan contemplates a working agreement between the various powers, based upon the principle of equal opportunity. In all there are twenty-one articles, or provisions, which may be summarized as follows:

#### Summary Is Given

First—The contracting parties to agree to conserve the world's supply of petroleum by the elimination of waste, by the use of scientific methods in the exploitation of new fields and by the encouragement of capital to invest in the petroleum industry.

Second—Powers to agree to cooperate in the formation and maintenance of a permanent international conference to deal with all petroleum problems.

Third—Powers to agree to the principle of equality of privileges to nationals of the contracting parties.

Fourth—All governments to agree to prevent discrimination.

Fifth—Powers to agree not to support their nationals who seek to obtain exclusive petroleum rights.

Sixth—Powers to agree, however, that to encourage production it may be the part of wisdom to grant exclusive rights to extend over certain periods.

Seventh—Powers to make joint representations to other states and their colonies to the end that no exclusive development rights shall be granted.

#### To Settle Disputes

Eighth—Nations to agree upon some just and equitable machinery for settling any disputes that may arise.

Ninth—Equal privilege to be extended to all foreigners in the construction of pipe lines, which shall serve as common carriers.

Tenth—Powers to accord equal treatment to ships of the other powers in the matter of port facilities.

Eleventh—Nations to accord same oil bunkering facilities to ships of other nations in time of peace.

Twelfth—Contracting powers to agree to make representations to end any discrimination in matter of bunkering facilities.

Thirteenth—Each government to support the others in securing bunkering facilities.

Fourteenth—Each government to inform the other as to companies in which it holds a majority interest and to agree that the acts of such companies will be acknowledged as its own acts.

#### Powers to Agree

Fifteenth—Powers to agree that the principle of equality of treatment shall govern in all mandated territories; that American controlled companies, approved by the United States, shall be given opportunity, either by actual control of oil bearing lands or by other arrangements to acquire and dispose of an amount of oil equal to that of nationals of any third country and always at least one-half the amount given the mandatory power.

Sixteenth—Prospecting to be freely permitted in mandated territories to the nationals of all countries during a period of two years after mandates come into force.

Seventeenth—Mandated territory to be divided into rectangular blocks for exploitation and concessions, and granted to the highest bidder. No two adjacent blocks to be granted in any one year to or for the same company.

Eighteenth—No arrangement or agreement to be made which shall discriminate against the nationals of a third state with respect to the participation in the benefits from the mandated territory.

#### Not to Support

Nineteenth—Governments not to support within period of two years any applications by their respective nationals for petroleum rights to be granted by the governments of Persia, Russia, Roumania, Serbia, Hungary, Austria, Czechoslovakia, Albania, China and Mexico, the particulars of which have not been published for a sufficient time to permit of the adjustment of the mode of settlement provided in article 9.

Twentieth—Powers not to support their nationals with regard to petroleum rights obtained in territory now or hereafter in military occupation or government, if those rights were obtained during period of military occupation or prior to recognition by other parties to agreement.

Twenty-first—Contracting governments to agree to make joint representations to the end that other states may become signatories to this agreement.

## San Fernando Valley

A plan calling for an expenditure of \$25,000 over a period of two years in the development of eight acres of land into a public park fronting the San Fernando mission has been adopted by the park commissioners of Los Angeles. A drive for the financing of the plan is under way.

The land belongs to the city of Los Angeles, dedicated as a gift for park purposes by L. C. Brand of North Glendale, and is a nonsectarian movement endorsed by the Los Angeles Chamber of Commerce, the Los Angeles city council and the park commission. Each of these organizations has signified its intention to contribute to the necessary fund, but just what amount has not yet been decided upon. Assistance from the public will be necessary for its fulfillment. It is understood that after the park is completed the city of Los Angeles will maintain it.

The plan is to reproduce an enlarged replica of the sacred gardens at the Santa Barbara mission on one-third of the eight acres.

**Potato Growers to Meet**  
The potato growers' department of the Los Angeles County Farm bureau will hold a big fall meeting for Southern California potato growers in the Nan Nuy high school at 10 o'clock, Tuesday morning, November 29.

The two big problems confronting the potato growers of the south are the disposal of the enormous crop of culls and the working out of some system whereby a profitable crop of fall potatoes can be secured. The loss from these two items amounts to millions of dollars every year.

#### Seek Ranch for Chickens

A. J. Emery and Carl H. Peine of Los Angeles were in Burbank last week looking for 200 acres of land suitable for a 40,000 hen egg ranch. What they want is a place where they can raise 40,000 hens at one time which will furnish eggs for the market.

#### Goats Go Everywhere

Mrs. Belle Miller has made a marked success with Nubian goats at a ranch in La Crescenta. Her market is nationwide. One of the pure-bred goats was recently shipped to Chicago. Texas has just received two more. Two have gone to Kentucky and one to Oklahoma.

#### To Enlarge Organ Factory

Plans are now under consideration for extensive additions and improvements to the large pipe organ factory operated by the Robert Morton company in Van Nuys, which will increase the capacity of the plant and will allow the employment of a number more skilled mechanics.

#### New Captain of Guards

Dr. Frank C. Tillson, known as a dentist and poet, has been appointed in command of Company I, One Hundred Sixtieth National guard at Burbank. Captain Tillson is successor to Raymond Wells, who is now on his way to Europe, where he plans to sell the sacred films produced in Southern California.

## Prominent Stars in Cecil B. De Mille's Picture at T. D. & L.

For several years, Cecil B. De Mille has had the unique distinction of producing the season's most successful pictures. He has the aid of a star in the leading role. He has definitely established the value of a well-balanced cast and a strong story irrespective of the box office value of the individual star.

Stars achieve stardom because of their ability to portray certain characters with the maximum power, charm and naturalness. Believing that the best possible cast for a production of this calibre could only be recruited from the ranks of stardom, Cecil B. DeMille assembled what is unquestionably the greatest aggregation of stellar talent ever seen in a single production. Names that usually appear as stars are in the following list of principals:

Wallace Reid, Gloria Swanson, Elliott Dexter, Bebe Daniels, Monte Blue, Wanda Hawley, Theodore Roberts, Agnes Ayres, Theodore Kosloff, Julia Faye, Raymond Hatton and Polly Moran.

And all of this formidable group are assembled in a single production—"The Affairs of Anatol," which opens a three-day engagement at the T. D. & L. theatre Tuesday.

Today is the last day of George Loane Tucker's production, "Ladies Must Live," with Betty Compson.

## NEW PRESIDENT OF OCCIDENTAL IS SPEAKER HERE

Dr. Remsen Du Bois Bird at Presbyterian Church at Service in Morning

The people of the Presbyterian church were addressed Sunday morning by Dr. Remsen DuBois Bird, the new president of Occidental college, near neighbor in Eagle Rock, in which are now a number of Glendale young people. Dr. Bird's valuable address can be only slightly represented by a resume as follows:

"The flow of history does not flow smoothly as a river. On the contrary, for periods it is stationary, congealed as a glacier. Then suddenly there comes a spark, fire, the glacier melts, the flow of history moves swiftly for a brief time, and then it congeals to the slow glacier again. At points there are great appearances which change the course of history. Such a one was John the Baptist; such was Peter the Hermit—Europe was different after him. Later came Luther and in the brief space from 1517 to 1530 his life caused a great change, and then fifty fell again."

"Now we are in one of those periods of change, as it was in the sixteenth century—a period of question; the worth of every thing is questioned, even of the church. And we must consider these questionings. A dean of the English church is now saying democracy is a failure."

#### Important Factor

"Among all this, the college comes into question; there are those who question its worth. We stand to defend it. It is the most important factor in our fabric after the church. Among colleges the most important is the small, limited college. Universities take in a great student body and give many types of training. The limited college means the institution which gives a general, not a specific, education. Dr. Meiklejohn, of Amherst, says of such education, 'We are devoted to study of human living, in order that human living may be better done.' A father puts his son into his business to learn it from the foundation up, and then does nothing to train him in the highest things—that is not education."

"The small college says it can only train a small number, not a multitude. And it says, 'We hold to certain views which are not those of the multitude, so we must have only those willing to think this way.' That college can accomplish most which aims at service and not exploitation, which takes the young at the malleable stage and makes the most of them. It seeks to give them a right attitude of mind, a right perspective. 'I lived in German schools, before the war. Was there ever a people so trained but so lacking the training of the soul?' Young souls need most of all the fruits of the spirit, the right attitude of mind and the right appreciations. We so lack the best preparations."

#### In Book Stalls

"Do you notice what is to be seen in the book stalls? How year by year a few more things that are evil appear there? This represents the increasing demand. John Keats lived only twenty-five years and wrote a few poems, but those few are immortal. We need to build up the right appreciations and aspirations."

"H. G. Wells is trying to find out why God gets done with nations and they go down and out. The reason is, 'Where there is no vision the people perish.' Aspiration gone, the people perish. Now no nation ever had more than the United States. Just yesterday we said those terrible evils across the sea must be put down. And then we came home played out. Now where are we going to get it again but in the small Christian college? Our own Occidental college has many needs in order that it shall be able to measure up to the opportunity and privilege. What a power it could be in the state! Making Christian character in order that human living may be better done."
